The Newell Group

Introduction

The Machinery, Equipment & Other Manufacturing businesses in the Murraylands represent some of the most advanced businesses of their type in Australia. Many of these businesses are already exporting to countries such as Switzerland, Hong Kong, United States of America and New Zealand just to name a few. The diversity of these businesses represents the various skills and expertise of the people in the region with many of these businesses have exclusive contracts with overseas customers. I am sure that you will be able to find a machinery business in the Murraylands that will meet your requirements and expectations.

EMAIL:
emflow@lm.net.au

BRAND NAME(S):

PRODUCTS:
Emflow produces a wide range of valves in varying sizes which have been developed to a level of excellence in quality and efficiency. With concern for drought situations and water restrictions affecting many parts of Australia, the Emflow valve can offer the lowest headloss of any valve on the market. This feature clearly contributes to lower pumping costs on any irrigation or industrial system.
